PROFESSIONAL SUMMARY

Product designer focused on making complex tools feel simple. Currently at Goldman Sachs on the Human Capital Management team, designing internal tools in Figma for recruiting and onboarding teams. Use AI-augmented design tools in daily workflow and explore AI product design in side projects. Previously worked on a 0-to-1 CRM for Tiberon Systems and led UI design for the 1st-place mobile game at the DSCVR Buildathon.

Comfortable across enterprise, B2B SaaS, and consumer surfaces.

EDUCATION

Mento Design Academy, UX Design Bootcamp — 2024 – 2025
Savannah College of Art & Design, Savannah, GA — 2021 – 2024
BFA, Animation – Story and Concept

WORK HISTORY

Goldman Sachs, Dallas, TX
Product Designer · August 2025 – Present

- Design internal tools in Figma on the Human Capital Management team, focused on recruiting and onboarding workflows.
- Partner with PMs and stakeholders in weekly design reviews — presenting flows, fielding feedback, and iterating designs for active HCM projects.
- Modernized a legacy recruiter dashboard — helped redesign and launch the new version (Dec 2025), improving information architecture across the tool.
- Use AI-augmented design tools (Figma Make, generative AI for ideation) in daily workflow to accelerate exploration and prototype generation.

Tiberon Systems, Houston, TX
Product Designer (Contract) · February 2025 – May 2025

- Sole product designer for a responsive CRM designed in Figma for desktop and mobile, owned end-to-end from user flows through high-fidelity prototypes.
- Built a comprehensive design system of 20+ reusable components and design tokens, ensuring consistency across platforms.
- Partnered autonomously with engineers in an early-stage startup environment, translating technical constraints into shipped UI on aggressive timelines.

DSCVR Freelance, Remote
Product Designer (Contract) · September 2024 – October 2024

- Designed full UI in Figma for Pixel Arena, the 1st-place winning mobile game at the DSCVR Buildathon, partnering with a developer in tight feedback loops to ship a polished build under competition deadline.

AWARDS

1st Place – DSCVR Buildathon 2024

SKILLS

Design Tools: Figma, Figma Make, Claude Design

Core Competencies: Product Design, Design Systems, AI Product Design, Generative AI, Interaction Design, Prototyping, Wireframing, User Research, Usability Testing, Information Architecture, Visual Design, Motion Design, Responsive Design, Mobile Design, Component Libraries, Design Tokens, Accessibility

Methodologies: Cross-functional Collaboration, Agile, Lean UX, 0-to-1 Product Development, Product Thinking, Enterprise UX, A/B Testing, User Journey Mapping
