WORK HISTORY

Goldman Sachs, Dallas, TX
Product Designer · August 2025 – Present

- Design internal tools in Figma on the Human Capital Management team, focused on recruiting and onboarding workflows.
- Partner with PMs and stakeholders in weekly design reviews — presenting flows, fielding feedback, and iterating designs for active HCM projects.
- Took over a legacy recruiter dashboard mid-flight and ran its stakeholder iteration loop through the new version's launch (Dec 2025).
- Designing an onboarding dashboard that replaces fragmented vendor emails with one central step tracker for new joiners.
- Use AI-augmented design tools (Figma Make, generative AI) in daily workflow to accelerate exploration and prototyping.

Tiberon Systems, Houston, TX
Product Designer (Contract) · February 2025 – May 2025

- Sole product designer for a responsive CRM designed in Figma for desktop and mobile, owned end-to-end from user flows through high-fidelity prototypes.
- Built a comprehensive design system of 20+ reusable components and design tokens, ensuring consistency across platforms.
- Partnered directly with engineers in an early-stage startup environment, shipping UI on aggressive timelines.

DSCVR Freelance, Remote
Product Designer (Contract) · September 2024 – October 2024

- Designed full UI in Figma for Pixel Arena, the 1st-place winning mobile game at the DSCVR Buildathon, partnering with a developer to ship a polished build under competition deadline.
